

CONCEPTUAL FRAMEWORK

Syria Law No.12 (2024): Law No.12 of March 28, 2024 on protection of personal data, aiming to preserve privacy and regulate data collection and processing.

Methodology Overview: framework-first assessment methodology | Cyber GRC assessment of Syria law No.12 (2024) on its own terms and regulatory architecture. The assessment outcome serves as a basis for upcoming comparative studies and benchmarking.

LAST MODIFIED 01 AUG 2026

GRC DOMAIN	CYBER GRC INSIGHT
1.1 GOVERNANCE FOUNDATION	• Common governance language through legally defined terminology established and key entities, actors, concepts, and regulatory terminology entitled in the governance framework defined. • Institutional and operational actors defined (Ministry Of Communications &IT, independent administrative authority for the protection of personal data known as "National Authority For IT Services", Board Of Directors, Controller, Processor, Data Protection Officer, Data Subject). • Regulatory foundation for a governance ecosystem established by defining the institutional and operational actors with their respective roles and responsibilities. The national authority is responsible for ensuring that the processing of personal data is carried out in accordance with the provisions of the law.

GRC DOMAIN	CYBER GRC INSIGHT
1.2 REGULATORY OBJECTIVES& SCOPE	• It is centered on protecting personal data handled by electronic means. Paper records and physical filing system are out of scope. • It lays down rules relating to protection of personal data and individual privacy. • It outlines fundamental rights and obligations of all actors relating to data collecting and processing. • It requires to appoint a data protection officer within actors processing personal data. • It regulates the exchange of personal data locally and cross_border, subject to defined conditions and data subject's consent. • It establishes a mechanism for requests and complaints by data subjects whose rights have been violated.

1.3 GOVERNANCE AUTHORITY& EXECUTIVE FRAMEWORK	The law establishes the principal governance authorities and allocates executive responsibilities. However, the operational executive framework appears to depend on subsequent executive regulations, ministerial decisions, and authority-issued instruments, which require further assessment.
